

HI PERFORMANCE (140sgn)

31-1-8

- ✓ 100% of Nitrogen supplied as UMAXX, for safe and steady turf response.
- ✓ Added Iron and Manganese for enhanced colour and enhanced assimilation.
- ✓ Apply year round where steady and long term Nitrogen feeding is desired.
- ✓ 140sgn (average particle = 1.4mm) UMAXX for greens and general turf alike.

TECHNOLOGY

UMAXX stabilised Nitrogen is recognised as a premium slow release fertiliser technology. UMAXX consistently performs regardless of soil temperature or climate. UMAXX works by inhibiting soil bacteria responsible for nitrification, flattening the rate of Nitrogen availability, in turn smoothing turf growth rates.

USE PATTERNS

Use this product on tees and fairways through spring and summer for enduring colour and vigour to resist wear from increased traffic. Use at the rate of 80-160kg / ha.
