

THE EVOLUTION OF FERTILISERS
DINOFERT STANDARD GRANULAR

NPK 3.5 : 1.7 : 1.6

Product Description

Dinofert Standard Granular is an all-purpose, certified organic fertiliser consisting of composted poultry manure that is in an easy spread, flowing granule form for convenient application.

Key Benefits

- ✓ All Purpose fertiliser.
- ✓ 100% Organic.
- ✓ Adds essential organic matter to replenish soil structure.
- ✓ Slow release so it lasts longer and does not burn plants.
- ✓ Enhances moisture retention and aeration of soil.
- ✓ Promotes microbial and earthworm activity.
- ✓ Improves the soil cation capacity resulting in greater nutrient retention.
- ✓ Heat treated to kill weed seeds and to significantly reduce harmful bacteria.
- ✓ Consistent, easy spreading product unlike raw poultry manure.
- ✓ Granules require less watering in as they filter down easily through the soil.
- ✓ Contains minimal dust.

Package Sizes Available

20kg, 1 Tonne, Loose Bulk

Product Average Analysis

Nitrogen (N)	As poultry manure	3.50%
Phosphorus (P)	As water soluble	0.30%
	As citrate soluble	1.00%
	As citrate insoluble	0.40%
	TOTAL (P)	1.70%
Potassium (K)	As poultry manure	1.60%
Calcium (Ca)	As poultry manure	5.50%
Magnesium (Mg)	As poultry manure	0.60%
Sulphur (S)	As poultry manure	0.50%
Iron (Fe)	As poultry manure	0.40%
Copper (Cu)	As poultry manure	0.008%
Zinc (Zn)	As poultry manure	0.040%
Boron (B)	As poultry manure	0.003%
Manganese (Mn)	As poultry manure	0.050%
Molybdenum (Mo)	As poultry manure	0.0008%

PRODUCT TECHNICAL DATA SHEET

Home Garden Application Rates

Flowers & Vegetables	200g/m ²
Fruit Trees	500g – 5kg/tree
Ornamentals & Roses	200 – 400g/m ²
Natives, Azaleas & Acid Loving Plants	50 – 100g/m ²
Pots & Container Plants	30 – 60g/m ²
Lawns	100g/m ²

Commercial Application Rates

Citrus	3kg/tree
Pome Fruit	2 – 3kg/tree
Stone Fruit	2 – 3kg/tree
Olives	1.5 – 2.5kg/tree
Other Fruits	0.5 – 5kg/tree
Vines	0.8 – 1t/ha

Vegetables	2t/ha
Turf	1t/ha

Application rates are to be used as a general guide only. In commercial applications, we recommend thorough soil testing and for further information seek advice from your local horticulturalist.

Directions for Use

As a guide one full cup holds on average 200g of product or a 2L ice cream bucket holds approx. 2kg.

Precautions

- ✓ Always water in well after application.
- ✓ Over time organic and/or organic based fertilisers may start to increase the soil pH, this means special care should be taken when adding fertiliser to alkaline soils.
- ✓ When fertilising natives and acid loving plants, remember to use lower rates and apply less frequently.
- ✓ For the best lawn results, use Dinofert Lawn Food (low odour formula) or Dinofert Turf Pro.
- ✓ Store in a cool dry place.
- ✓ Fertilisers contain microorganisms that that may be harmful to your health. Wear gloves and protect eyes from splashing when watering into soil. Use a mask, avoid inhaling product and wash hands immediately after use.
