

MP 10 - 1-11 + Biostimulants NOURISH

LIQUID PLANT NUTRITION

ENHANCES SOIL & PLANT HEALTH

UNIQUE FEATURES

- » Highly effective soil & plant enhancing liquid fertiliser
- » Contains VAM beneficial fungi
- » Optimal pH to maximise lead uptake of nutrients
- » Clean liquid product that is easy to apply via spray boom
- » Quick to medium release of Nitrogen and Potassium
- » Increases soil microbial activity
- » Contains humates, Plant Stimulants, Kelp and Trace elements

TECHNOLOGY

MP NOURISH is biologically active liquid fertiliser which will enhance plant vigour and aid in the release of locked up nutrients in the soil. The combination of Humates, Kelp and natural plant nutrients provide many advantages which include:

- » An increase in root mass and root hair activity
- » Aids the recovery from environmental stresses
- » High tolerance of plant parasitic nematodes due to an increase in root mass from the inclusion of Kelp and natural seaweed products

ABOUT VAM

Vesicular Arbuscular Mycorrhizas (VAM)

VAM are beneficial symbiotic fungi that can colonize up to 80% of the turf root mass. The fungal hyphae that are produced grows out into the soil medium further than the root hairs themselves and results in greater

nutrient access within the medium, as the hyphae carries ordinarily unavailable nutrient back to the plant.

Additionally VAM release compounds that can dissolve elements susceptible in forming insoluble compounds such as phosphorus and trace elements.

Numerous studies have shown VAM to improve the plants ability to recover from water stress.

USE PATTERNS

General rates for MP Nourish are 40-60 ltrs/Ha in 150-500ltrs of water and can be applied as a Foliar or Soil applied as a drench. MP Nourish is ideal for turf establishment and renovation, programed applications in sand content profiles will assist in maintaining soil nutrients near the plant. Apply via Boom Spray, Fertigation unit or Ferti-spray.

GUARANTEED ANALYSIS W/V%

Total Nitrogen	10%
As Nitrate/Nitrite	
Total Phosphorus	1%
as water soluble	
Total Potassium	11%
as water soluble	

APPLICATION RATES

40-60ltrs of MP Nourish in 250-500ltrs/Ha

Ideally use the higher rate for the first 2 applications
