RENOBLEN 7-1-9 (SGN 140)

Use Renoblen 7-1-9 to stimulate rapid recovery at renovation and to pre-condition soil for season long growth. Renoblen 7-1-9 from Matchplay contains Nutrasmart® Technology - a break through in organic nutrition:

Rates / 100m2
Bentgrass - 3-4 kg
Couchgrass - 5-7kg

General comments
Water to root depth after application.
Always reseal bags after use.

Approximate Spreader settings
Scotts Accupro 2000 (cone setting 6). Swathe width approx 3.5m.
4kg / 100 - M1/2 6 kg / 100 - O1/2
The spreader settings are close approximations. Trial calibration is recommended before wide spread use.

Fertiliser Analysis …		
7.1%	Nitrogen (N) Total	
	3.7%	Nitrogen (as lo bi urea)
	2.9%	Nitrogen as coated nitrate.
	0.4%	Nitrogen as organic.
1.4%	Phosphorus (P) Total	
	1.4%	Phosphorus soluble in ammonium citrate.
9.0%	Potassium (K) Total	
	8.8%	Potassium (K) as coated nitrate.
	0.2%	Potassium organic
0.1%	Sulphur as sulphate	
1.9%	Calcium (Ca) as oxide	
1.3%	Magnesium (Mg) as oxide)	
0.2%	Zinc	
0.02%	Copper	
0.51%	Iron

Matchplay Renoblen is manufactured by W. Patons fertilizer, NSW Australia.
Matchplay, Renoblen and Aquaturf are tradenames of Greenshed Pty Ltd.
Nutrasmart is a trademark of C.K. Life Sciences International Inc.

- *Granular organic humus base*
- *Controlled release potassium in nitrate form.*
- *Full trace element package*
- *Magnesium for chlorophyll production*
- *Greens grade particle size*
- *Contains Aquaturf wetting agent*
- *Three N sources including coated nitrate*
- *Calcium to aid root growth*
- *Minimal burn potential*
- *up to 12 weeks longevity.*
