Green Lawn® Vision Pro™ is an advanced spray color technology for turf managers who want to make uniform applications of plant protection products with the added feature of a long-lasting natural green turf color.

### APPLICATION RATES

Apply at 1.2 Litres per Ha

Minimum 300 - 400 Litres of water per Ha

### DIRECTIONS FOR USE

#### ALWAYS FOLLOW PESTICIDE MANUFACTURE'S LABEL DIRECTIONS

- Fill the sprayer tank ½ to 2/3 the total volume of water and begin agitation.
- Vision Pro should be added into the mix solution following the standard order of addition-after dry flowable/dispersible granules and before water-soluble pesticide formulations.
- Allow Vision Pro to fully disperse into the mix solution before adding additional pesticides.
- Fill remainder of the sprayer tank with water to the desired volume.
- Apply pesticide solution mix to the target site at the rate specified on the pesticide manufacture's label.
- Do not leave pesticide mix solutions with Vision Pro in the sprayer tank overnight.
- Do not apply Vision Pro on athletic sports fields where colorant rub-off onto uniforms or other clothing is undesirable

**For best results,** Use low to medium sprayer pressure. Avoid overspray on concrete, masonry, or any other objects where color is not desired, otherwise permanent staining may occur. Additional overspray may be removed by a water rinse prior to drying.

### EQUIPMENT CLEANING

After application, always drain and clean the sprayer tank, pump, hoses, valves and nozzles as instructed by the pesticide manufacture's label. Dispose of rinsates as per local, state, and federal regulations.

### PRECAUTIONARY STATEMENTS

Avoid contact with eyes and skin. May be harmful if swallowed. In case of ingestion, dilute with water and consult a physician. See Material Safety Data Sheet for additional information.

### STORAGE

Store in original container only and keep sealed. Store in closed storage areas. Use caution when moving, opening, closing or pouring. Wear safety glasses and protective clothing when handling this product.

### CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by Federal, State and local authorities.

### WARRANTY STATEMENT

**NOTICE:** The statements on this label are believed to be true and accurate, but because use conditions are beyond our control, BASF, does not make, nor does it authorize any agent or representative to make any oral or written warranty, guarantee, or representation, expressed or implied, concerning this material or the use thereof beyond the statements of the label. Neither BASF, nor the seller shall be held responsible in any manner for any claim, personal injury, or property damage or loss resulting from handling, storage, or use of this material not in accordance with the written directions. The buyer assumes all risk and liability resulting from handling, storage, or use, and purchaser accepts and uses this material on these conditions. No other warranty exists.
