

LIQUID PLANT NUTRITION

ENHANCES SOIL & PLANT HEALTH

UNIQUE FEATURES

- » Highly effective soil & plant enhancing liquid fertiliser
- » Foliar Nitrogen, Calcium & Boron product with optimal pH to maximise leaf uptake
- » Clean liquid product that is easy to apply via boom spray
- » Quick to medium release of N, Ca & B
- » Highly available and biologically active soil calcium
- » Increases soil microbial activity
- » Contains humates, Plant Stimulants, Kelp and Calcium

TECHNOLOGY

MP REFRESH is biologically active liquid fertiliser which will enhance plant vigour and aid in the release of locked up nutrients in the soil. The combination of Humates, Kelp, Calcium and natural plant nutrients provide many advantages which include:

- » An increase in root mass and root hair activity
- » Aids the recovery from environmental stresses
- » High tolerance of plant parasitic nematodes due to an increase in root mass from the inclusion of Kelp and natural seaweed products

VM3 ORGANICS + CALCIUM

MP REFRESH delivers freely available Calcium along with protein based organic Nitrogen to strengthen turf and correct calcium deficiency fast. Calcium is an essential element for strengthening cell walls and subsequently enhancing stress resistance.

MP REFRESH contains VM3, a proprietary organic technology that enhances nutrient availability, longevity and compatibility for better turf performance. VM3 is a product of fermentation that incorporates several beneficial bacteria, trace minerals and plant stimulants. In this process, nitrates are converted to protein N, for increased stability, longevity and turf safety when applied to foliage.

USE PATTERNS

General rates for MP REFRESH are 20-40 ltrs/Ha in 150-500ltrs of water and can be applied as a Foliar or Soil applied as a drench. MP REFRESH is ideal for turf establishment and renovation, programed applications in sand content profiles will assist in maintaining soil nutrients near the plant roots.

Apply via Boom Spray, Fertigation unit or Fertilispray.

GUARANTEED ANALYSIS W/V%

Total Nitrogen	10%
As Nitrate/Nitrite	
Total Phosphorus	1%
as water soluble	
Total Potassium	0%
as water soluble	

APPLICATION RATES

20-40ltrs of MP REFRESH in 150-500ltrs/Ha
