

# LIQUID PLANT NUTRITION

ENHANCES SOIL & PLANT HEALTH

## UNIQUE FEATURES

- » Highly effective soil & plant enhancing liquid fertiliser
- » High Potassium & Silica formula with optimal pH to maximise nutrient uptake
- » Increase plant strength and improve Phosphorus uptake in plants
- » Clean liquid product that is easy to apply via boom spray
- » Strengthen turf canopy against traffic and encourage air flow around turf shoots
- » Increases soil microbial activity
- » Contains humates, Plant Stimulants, Kelp and Silica

### TECHNOLOGY

MP REINFORCE is biologically active liquid fertiliser which will enhance plant vigour and aid in the release of locked up nutrients in the soil. The combination of Humates, Kelp, Silica and natural plant nutrients provide many advantages which include:

- » An increase in root mass and root hair activity
- » Aids the recovery from environmental stresses
- » High tolerance of plant parasitic nematodes due to an increase in root mass from the inclusion of Kelp and natural seaweed products

### VM3 ORGANICS + SILICIA

MP REINFORCE delivers freely available Silica along with VM3 organics to strengthen turf and correct calcium deficiency fast. Calcium is an essential element for strengthening cell walls and subsequently enhancing stress resistance.

### GUARANTEED ANALYSIS W/V%

Total Nitrogen	0%
As Nitrate/Nitrite	
Total Phosphorus	0%
as water soluble	
Total Potassium	5%
as water soluble	

MP REINFORCE contains VM3, a proprietary organic technology that enhances nutrient availability, longevity and compatibility for better turf performance. VM3 is a product of fermentation that incorporates several beneficial bacteria, trace minerals and plant stimulants. In this process, nitrates are converted to protein N, for increased stability, longevity and turf safety when applied to foliage.

### USE PATTERNS

General rates for MP REINFORCE are 20-40 ltrs/ Ha in 150-500ltrs of water and can be applied as a Foliar or Soil applied as a drench. MP REINFORCE is ideal for turf establishment and renovation, programed applications in sand content profiles will assist in maintaining soil nutrients near the plant roots.

Apply via Boom Spray, Fertigation unit or Fertspray.

### APPLICATION RATES

20-40ltrs of MP REINFORCE in 150-500ltrs/Ha
