Fairway Herbicide

ACTIVE CONSTITUENTS:
280 g/L MCPA present as the ISO-OCTYL ESTER
140 g/L BROMOXYNIL present as the OCTANOATE ESTER
40 g/L DICAMBA present as the ACID

SOLVENT: 289 g/L HYDROCARBON LIQUID

GROUP CII HERBICIDE

For the control of certain broadleaf weeds in wheat, barley, cereal rye, oats, triticale and turf as per the Directions for Use.

Adama Australia Pty. Ltd. ABN 55 050 328 973
Suite 1, Level 4, Building B, 207 Pacific Highway
St Leonards NSW 2065 Australia
Tel: (02) 9431 7800 Fax: (02) 9431 7700 adama.com
STORAGE AND DISPOSAL
Store in the closed, original container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. For Non-Refillable Containers: Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on-site. If not recycling, break, crush or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available bury the empty packaging 500 below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.

SAFETY DIRECTIONS
Harmful if absorbed by skin contact or inhaled or swallowed. Will irritate the eyes and skin. DO NOT inhale spray mist. Repeated exposure may cause allergic disorders. When opening the container and preparing spray wear cotton overalls buttoned to the neck and wrist and a washable hat and elbow length PVC gloves and a face shield or goggles. When using the prepared spray wear cotton overalls buttoned to the neck and wrist and a washable hat and elbow length PVC gloves. If product on eyes, wash it out immediately with water. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day’s use wash gloves, face shield or goggles and contaminated clothing.

FIRST AID
If poisoning occurs contact a doctor or Poisons Information Centre. Phone Australia 13 11 26. If swallowed, DO NOT induce vomiting. Give a glass of water.

MSDS
Additional information is listed in the material safety data sheet (MSDS). A material safety data sheet for FAIRWAY Herbicide is available from adama.com or call Customer Service on (02) 9431 7800.

CONDITIONS OF SALE: The use of FAIRWAY Herbicide being beyond the control of the manufacturer, no warranty expressed or implied is given by Adama Australia Pty. Ltd., regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and Adama Australia Pty. Ltd. accepts no responsibility for any consequence whatsoever resulting from the use of this product.

*Registered trademark of an ADAMA Group Company
NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

WITHOLDING PERIOD
Do not graze or cut for stock food for 14 days after application.

GENERAL INSTRUCTIONS
Note: A temporary warning may be evident in crops after application. Under some conditions, regrowth and successive germination of weeds may occur following treatment and may require follow-up spraying.

Crop Safety
FAIRWAY Herbicide is a combination of the
Nitriles, Phenoxys and Benzylidene acids of herbicides. FAIRWAY has the inhibitors of photo-synthesis at photosystem II and the inhibitors of plant cell growth modes of action. For weed resistance management FAIRWAY Herbicide is a Group C and Group I herbicide. Some naturally occurring weed b roundup resistant FAIRWAY Herbicide and other Group C and Group I herbicides may exist through normal genetic variation in any weed population. The resistant individuals can eventually dominate the weed population if these herbicides are used repeatedly. These weeds will not be controlled by FAIRWAY Herbicide or other Group C and Group I herbicides.

Since the occurrence of resistant weeds is difficult to detect prior to use, Adama Australia Pty Ltd accepts no liability for any losses that may result from the failure of FAIRWAY Herbicide to control resistant weeds.

PROTECTION OF CROPS, NATIVE AND OTHER NON-TARGET PLANTS
Spray equipment must be calibrated accurately prior to working on crops. All spray equipment must be thoroughly washed out after use and must not be used for spraying horticultural crops.

DO NOT apply under weather conditions or from spray equipment that may cause spray to drift onto nearby susceptible plants/crops, cropping lands or pastures. DO NOT use in close proximity to vines, tomatoes and other susceptible crops including beans, peppers, tomatoes, ornamentals, lupins and fruit trees. To prevent damage DO NOT permit drift or vapour or spray mist to come into contact with fruit and ornamental trees, cotton, vines, vegetables, flowers, tomatoes, lupins or any other field crop. Minimise spray drift by using low pressure and nozzles which do not give a fine droplet size. DO NOT use in high wind. DO NOT apply this product on or near desirable trees or plants in or locations where the chemical may be washed or moved into contact with their roots.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT
DO NOT contaminate streams, rivers or waterways with the chemical or used/contaminated container.

STORAGE AND DISPOSAL
Store in the closed, original container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. For Non-Refillable Containers: Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on-site. If not recycling, break, crush or puncture and deliver empty packaging for appropriate disposal.

For Refillable Containers: Storage must be secure so that contents cannot be tampered with. All locks and/or seals must be intact. If locks or seals are broken prior to initial use then the entire container of this product cannot be assumed. If this occurs Adama Australia Pty Ltd should be immediately advised.

Temporary exclusion of flow contains the preferred firefighting material but, if it is not available, normal foam can be used. If in eyes; Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

IF SWALLOWED: Rinse mouth. DO NOT induce vomiting. Use only outdoors or in a well ventilated area. Avoid release to the environment. Very toxic to aquatic life with long lasting effects. Avoid release to the environment. Wear protective clothing. Use only outdoors or in a well ventilated area. Do not contaminate water, food or feed by improper disposal. If swallowed: Induce vomiting. Inform physician. If skin irritation or rash occurs: Get medical advice. Collect spillage.

For the control of certain broadleaf weeds in wheat, barley, cereal rye, oats, triticale and turf as per the Directions for Use.
