VM3 ORGANICS + Calcium

MP REFRESH delivers freely available Calcium along with protein based organic Nitrogen to strengthen turf and correct calcium deficiency fast. Calcium is an essential element for strengthening cell walls and subsequently enhancing stress resistance. MP REFRESH contains VM3, a proprietary organic technology that enhances nutrient availability, longevity and compatibility for better turf performance. VM3 is a product of fermentation that incorporates several beneficial bacteria, trace minerals and plant stimulants. In this process, nitrates are converted to protein N, for increased stability, longevity and turf safety when applied to foliage.
