

MP CHARGER 10-0-10

10 Ca + 5.5 Mg + 1 Fe

100% of N as Methylene Urea

SGN 100

MP Charger is a balanced slow release fertiliser with high analysis calcium and magnesium.

Use in turf situations to provide available calcium and magnesium at a balanced frequency to slow release nitrogen.

Apply MP Charger throughout the growing season for soil cation adjustments and steady turf growth, to maintain balanced soil chemistry.

Guaranteed Analysis

10%	Nitrogen (N) as Slow Release Methylene Urea	5.5%	Magnesium (Mg)
0%	Phosphorus (P)	1.0%	Iron (Fe)
10%	Potassium (K) as sulphate	mg/kg	Heavy metals
7.6%	Sulphur (S) as sulphate	BDL	Cadmium
10%	Calcium (Ca)	BDL	Lead
		BDL	Mercury
			Therefore use without restriction.

Rates / Ha	General comments
250-500 kg / Ha	Apply irrigation after application. Always reseal bags after use.
