

RENOBLEN® 16-2-9

Traces + Carbon + Beneficial Microbes

55% of N as UMAXX®
180 SGN

Renoblen® 16-2-9 fertiliser is a complete blended mineral based fertiliser with 55% of Nitrogen as UMAXX® technology and with a full range of macro and micro nutrients. The addition of GranU Carb 3A™ provides soil with biologically activated carbon to increase microbial activity and improve soil structure.

Renoblen® 16-2-9 also contains 5% **MP Tripleplay®** granules to help turf retain soil moisture during recovery periods.

Guaranteed Analysis	
16.0% Nitrogen (N) 8.8% as UMAXX® 3.9% as zeolite and carbon coated urea 3.3% as potassium nitrate	12.9% Carbon (C) 4.0% Silicon (Si)
2.4% Phosphorus (P)	Other Minerals (ppm)
9.2% Potassium (K)	507 Manganese (Mn)
0.7% Sulphur (S)	112 Copper (Cu)
6.5% Calcium (Ca)	253 Zinc (Zn)
0.5% Magnesium (Mg)	5 Molybdenum (Mo)
0.9% Iron (Fe)	14 Boron (B)
	29 Cobalt (Co)
	3 Selenium (Se)
Contains 5% MP TRIPLEPLAY® granular wetting agent	

Rates / 100 m ²	General comments
